SUMMARY

Results-driven Full Stack Engineer with strong problem-solving skills, effective communication, and a passion for building scalable applications. Proven ability to work in collaborative environments and deliver high-quality code in fast-paced settings.

EXPERIENCE

BugMonks   **Feb 2025 – Present**

Junior Software Engineer   *Remote*

  − Contributed to the development of **8+ SaaS products** across MERN, PERN, and React Native stacks.
  − Implemented key modules including authentication, payments, and dashboards impacting 2k+ active users.
  − Optimized APIs and databases (PostgreSQL, MongoDB) improving system performance by 30%.
  − Collaborated with cross-functional teams to deliver production-ready features under tight deadlines.

Freelance Software Engineer   **Dec 2024 – Jan 2025**

Independent   *Remote*

  − Built and delivered **5+ client projects** including mobile apps and web platforms.
  − Worked directly with international clients ensuring 100% on-time delivery and positive feedback.
  − Developed mobile apps using React Native and scalable APIs using Node.js/Express.

PROJECTS

Online Identity – Portfolio Generator | Live | *MERN, HBS, Supabase, NGINX, Redis, Digital Ocean, GitHub Actions*
  − Empowered 100+ users to instantly generate modern portfolios by filling a single form and choosing from 10+ static/professional designs.
  − Boosted design page load speed by 4× via Redis caching on frequently accessed design data.
  − Created dedicated admin panel for real-time template upload; enabled zero-downtime addition of 20+ templates using Supabase and Cloudinary storage.
  − Engineered a robust CI/CD pipeline using GitHub Actions for auto testing and seamless deployment to Digital Ocean with NGINX reverse proxy.

Devnity - An AI Code Editor | Live | *Next.js, React.js, Tailwind, Convex, Clerk, Zustand, Lemon Squeezy, TypeScript*
  − AI-powered online code editor enabling multi-language execution and real-time snippet sharing.
  − Developed collaborative editing and syntax highlighting for enhanced productivity.
  − Enabled sharing, liking, and commenting features; increased user interaction by 60%.
  − Integrated payments using Lemon Squeezy and authentication using Clerk.

Lals E-Commerce Clone with Chatbot | Live | *Node.js, Express.js, EJS, HTML/CSS, NLP.js*
  − E-commerce platform with cart, checkout, admin dashboard, and chatbot for customer support.
  − Trained NLP.js chatbot on 50+ questions to handle real-time user queries.
  − Increased test user retention by 40% through interactive chatbot support.
